

Network Diagram

Legend

- 1 Identity/Security:** Entra ID, Conditional Access/MFA, RBAC, Managed Identities, Privileged role governance
- 2 Networking:** Hub VNet, Spoke VNet(s), VNet peering, NSGs/UDRs, Azure Firewall, Bastion, Private DNS, Private Endpoints
- 3 Data:** Azure Data Factory, Data Validation gate, ADLS Gen2, Key Vault
- 4 Monitoring/SIEM:** Azure Monitor, Application Insights, Log Analytics, Microsoft Sentinel; Diagnostics from ADF/ADLS/AML/Firewall → Log Analytics
- 5 AI:** Azure Machine Learning (managed VNet isolation + private endpoints)
- 6 AI Governance:** Azure Policy guardrails + Purview data governance + AI governance workflow overlay
